2ND USER Forum

Adaptation-oriented seamless predictions of European climate

Friday 21 April 2023
10:00 - 13:00 CEST

Following a successful first session, ASPECT will be holding its **Second User Forum** on "Adaptation-oriented seamless predictions of European climate" on **Friday 21 April 2023 at 10:00-13:00 CEST**.

The second session of the ASPECT User Forum will include a presentation of more detailed information on technical modelling frameworks and the requirements for applying predictions.

Additionally, potential Super Users will share a series of use cases that they have developed as part of their application.

The session is open to all those interested in climate prediction, and particularly those who would like to share their experiences or explore the use of novel climate predictions and forecasts.

agenda

10:00 WELCOME AND INTRODUCTION
Insights from the first user forum

10:15 SEAMLESS PREDICTIONS: MODELS AND DATA
An overview of the models and data produced in ASPECT

10:45 CO-PRODUCTION OF CLIMATE INFORMATION
How we interact with the Super Users

11:00 BECOME A SUPER USER!
Pitches from potential super users from diverse sectors

11:30 BREAK

11:45 VALUE PROPOSITION OF SEAMLESS PREDICTIONS FOR DIFFERENT SECTORS
Discussions in break-out groups, focusing on: agriculture, financial services & insurance, regional & local adaptation strategies, and energy

12:00 INSIGHTS FROM BREAK-OUT GROUPS & CLOSING
